

Advanced Mathematics Teaching in Early Career

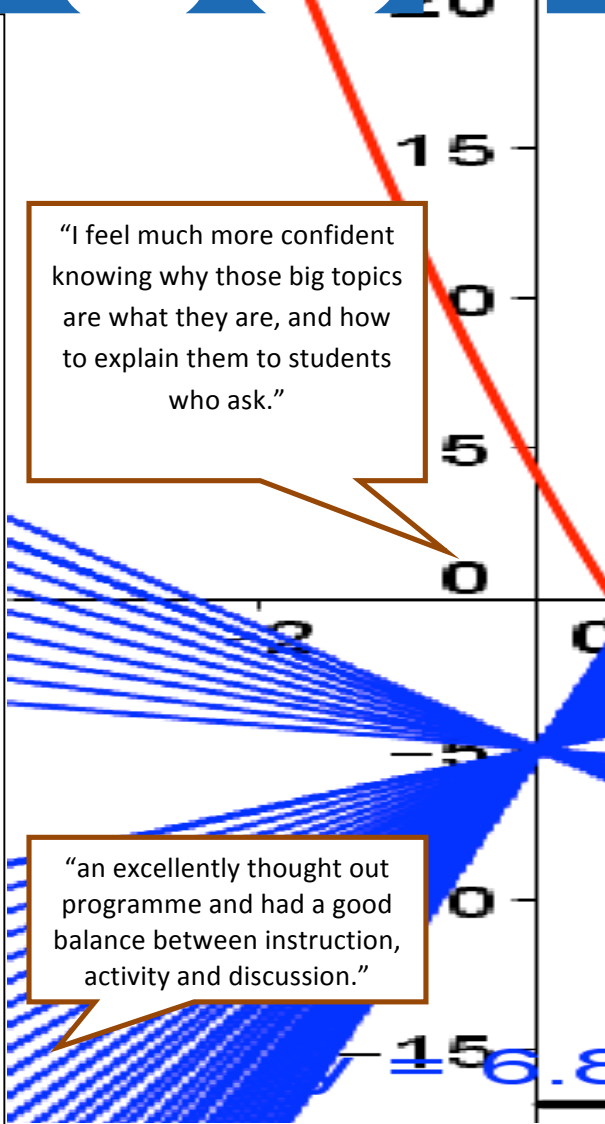

A short course developing A-level mathematics knowledge and pedagogy

9-11th April 2018

Venue: UCL Institute of Education
20 Bedford Way, London

Boost your confidence and skills to teach advanced GCSE/A-level maths topics in an engaging and responsive way.

- Three days of themed workshops (10.00-16.00): making sense of algebraic expressions, calculus and graphs, modelling with mathematics.
- Led by experienced teacher educators.
- Follow-up online resources available for 1 year
- Every workshop starts from GCSE mathematics, and explores a few mathematical problems in depth.
- 'Beginning teacher'–friendly focus on planning, sequencing and key ideas.
- Bring your own lunch!

"I feel much more confident knowing why those big topics are what they are, and how to explain them to students who ask."

"an excellently thought out programme and had a good balance between instruction, activity and discussion."

Offered FREE to teachers in their ITE or NQT year.
